

**Forbes**

"Exquisitely well-built offering incredible performance. In design, build, and performance, they're the epitome of high-end."

"Audeze headphones exemplify the pursuit of excellence. No dynamic headphone at any price comes close..."

"Bass impact and detail is simply otherworldly, midrange performance is similarly stellar."

**the absolute sound**

"Frankly, these headphones feel the way that the interior of a Rolls-Royce automobile looks – in a word, sumptuous."

**GIZMODO**

"These look so precise that who knows what amazing recording studio details you'll hear? Jimi Hendrix's memories?"

**TONEAudio**

"We are happy to make the LCD-X our choice for Product of the Year in the Personal Audio category"

Audeze LLC is a California-based high-end audio manufacturer delivering the most accurate sound reproduction available today. Audeze products are engineered with the latest innovations in materials science and technology matched with precision craftsmanship to produce an astonishingly dynamic and immersive sound. Audeze's commitment to research and development is reflected in every facet of our made-in-the-USA products.

## Inside Audeze Technology

### Proprietary Planar Magnetics

Audeze's breakthroughs and advancements in planar magnetic designs have created what many say are the best headphones available. Combining expertise in the fields of magnetics, thin-film technology, and audio, Audeze has developed world-class, proprietary planar magnetic designs.

### Fazor Technology

Patent-pending Fazor elements help guide and manage the flow of sound in the headphone for improved phase response, greater frequency extension, smoother frequency response, and 3D holographic imaging.

### Magnetic Structure

Our proprietary planar magnetic architecture creates a powerful and uniform magnetic field across the diaphragm resulting in very low distortion even at full output.

### Ultra-Thin Diaphragm

Our newly-developed ultra-thin diaphragm is significantly thinner than other planar designs. It's suspended between arrays of magnets and tensioned with extreme precision for an even distribution of force across its surface.

Zebrawood / Leather

### LCD-3

#### High-Performance Design

##### Options

- Lambskin or leather-free headband and earpads
- Ruggedized travel case or wooden show case

Zebrawood / Microsuede

Silky, refined sound, a wide, enveloping out-of-the-head soundstage that's delivering intimate club sound or concert-level dynamics. The bass is powerful, controlled and consistent, the midrange engagingly attractive, with a golden, burnished and beautifully balanced treble region. The experience is magnetic!

Rosewood / Leather

### LCD-2

#### State-of-the-art Design

##### Options

- Lambskin or leather-free headband and earpads
- Enclosure available in Caribbean rosewood or bamboo composite

Rosewood / Microsuede

Bamboo / Leather

The original, a beautiful, seductive sound encompassing the same powerful, differentiated bass as all Audeze headphones, transitioning to a gorgeous and tonal-rich midrange, with a beautiful, warm and emotive treble region. It takes a real effort not to enjoy music on these headphones.

Lambskin / Bubinga

### LCD-XC

#### Closed-Back Design

##### Options

- Lambskin or leather-free headband and earpads
- Cups available in a variety of premium woods

Purple Heart

Iroko

Walnut

A private and intimate way to hear Audeze-level sound. Closed-backs reduce ambient noise and are more private -- no sound escapes the earcups. It has the same performance as the open collection; powerful bass, attractive midrange, and detailed high frequencies. Easy to drive, they work beautifully with portable devices.

Lambskin Leather

### LCD-X

#### Reference-Level Design

##### Options

- Lambskin or leather-free headband and earpads

A vibrant and exceptionally neutral sound with incredible air around each performer and note. There's shimmer in the highs and a world-class midrange revealing everything in the recording. Its stunning dynamics give music you-are-there excitement. Superb for studio use they're easy to drive and work beautifully with all portable players.
